

# VISOR™ Platinum

The infinitely expandable handheld computer with amazing speed.

The Handspring Visor, the first infinitely expandable handheld computer, is **now even faster**. In fact, the Visor Platinum is 50% faster than the Visor Deluxe. The Visor Platinum gives you enhanced power, speed and performance so you can access all your data and view crisp grayscale graphics without the wait.

And, like all Visor handheld computers, it comes with the **unique Springboard™ expansion slot**, so you can instantly snap in a digital camera, wireless modem or even a phone. Best of all, it's plug-and-play so there are no drivers to load. Just snap in a module and it works!

**Based on the latest version of the popular Palm OS®**, the Visor Platinum does everything the Palm organizer does...and more. So, in addition to an address book, to do list, and memo pad, there are new features like an enhanced date book, advanced calculator and a world clock to make its organizational capabilities even better. Plus, it has new usability features like wireless synchronization, handy address

duplication, improved security, and enhanced navigation. And, since it uses the Palm OS, you can download thousands of existing Palm-compatible applications or beam information with other Palm users.

And if all that weren't enough, its **USB connection** makes synchronizing with your desktop computer really fast—and really easy. Which means you can quickly back up, update or exchange information between your Visor Platinum handheld and desktop computer with the USB cradle and HotSync® technology. You can even transfer existing Palm organizer data to your Visor Platinum with just one touch.

True to its name, the Visor Platinum comes in a shiny new **platinum metallic color**—and there are lots of cool accessories to choose from like custom cases, keyboards and colorful styli.

visor

of the original PalmPilot.

## Visor™ Platinum Features

### Incredibly Organized

- Get instant access to everything you need, everywhere you go.
- Enhanced date book with expanded views including weekly, yearly and a list view.
- Integrated To Do items that appear in the daily calendar view.
- Advanced calculator with advanced math, trigonometry, business, statistical and conversion functions; built-in math library for higher precision.
- World clock with day of the week and time for five cities around the globe.
- Based on the popular Palm OS®—so it does everything the Palm™ organizer does...and more.

### Amazingly Fast

- 50% faster than Visor Deluxe handheld.
- Satisfy your need for speed, power and performance.
- Faster access to all your data—without the wait.
- View crisp graphics quickly.

### Fully Compatible

- Visor handheld is fully compatible with the Palm OS so you can run Palm OS based software programs.
- Beam information or programs between your Visor handheld and other Palm organizers.

### Well Connected

- USB connection makes synchronizing with your desktop computer a whole lot faster and easier.
- Instantly back up, update and exchange information between your Visor handheld and desktop computer with the USB cradle and HotSync® technology.
- If you have existing data in a Palm organizer, you can transfer it to your Visor handheld with just one touch.
- Windows and Macintosh desktop software are included.

### Infinitely Expandable

- Handspring's unique Springboard™ expansion slot means your Visor handheld can become a digital camera, MP3 music player, or even a phone.
- It's the first true "plug-and-play" expansion—no need to load any drivers, just plug in a module and it works!
- No other handheld lets you switch functionality so easily. Use your wireless modem for business and your digital camera for pleasure.
- Modules can be purchased separately. Check [www.handspring.com](http://www.handspring.com) for availability.
